

## Bhumijo - an urban sanitation solution

- 1207, Bangladesh

There are less than 100 usable toilets in Dhaka - a city of more than 20 million people. In this situation, Bhumijo, a local social enterprise, has come up with a much needed solution. Bhumijo provides facilities that include male toilet, urinal, wash stations, drinking water, separate female facilities and differently abled-friendly toilet with wash stations. Besides these, the facilities also include diaper changing station, ablution and leg...
